

LUCKY SHARMA

GitHub: lucky1426shrma | LinkedIn: Lucky Sharma | lucky1426sharma@gmail.com | +91-9084164350

EDUCATION

- **Motilal Nehru National Institute of Technology Allahabad** CPI: 8.51 (till 4th Semester)
Bachelor of Technology 2024 – 2028

EXPERIENCE

- **Web development Intern, Enactus MNNIT** Jan 2025:
Built Full Stack web application serving 1200+ users during TechnoCultural Fest, MNNIT

PROJECTS

- **Multi-Tier Caching Reverse Proxy & Cloud Deployment Engine** **GitHub** August 2026:
Technologies / Tools Used: TypeScript, Node.js, Express, Docker, Redis 7, BullMQ, V8 (node:vm), AWS S3, Prometheus
 - Engineered a high-performance caching reverse proxy (**L1 RAM + L2 SSD**) with **MD5 ETag** validation, serving cached assets in **2ms** and cutting S3 upstream read calls by **90 %**.
 - Architected an asynchronous build pipeline with **BullMQ Redis**, isolating untrusted repository compilation inside ephemeral **Docker** containers (**512MB RAM, 1 CPU limit**) to mitigate host RCE.
 - Benchmarked reverse proxy throughput at **1,671+ req/sec with a p99 latency of 22ms (Autocannon)**, exporting live telemetry via **Prometheus (/metrics)** and **Server Side Events** to the dashboard.
 - Made an on-demand serverless runtime into the reverse proxy using **Google V8 based VM sandboxes (node:vm)**, dispatching Express APIs in **2ms cold starts** with **0% idle CPU** consumption.
- **Shaharnaama — AI-Powered Travel Community Connect & Exploration Platform** **Live | GitHub** January 2026:
Technologies / Tools Used: Google Gemini LLM, Node.js, Express.js, Passport.js, Socket.io, React.js, MongoDB
 - Developed a **Google Gemini 2.5 Flash (LLM)** powered **12-hour TTL cache** optimized Quiz Engine.
 - Built real-time live presence tracked chat feature with **Socket.io** with **Group/individual channels** to connect explorers.
 - Implemented **Google OAuth 2.0, JWT**, based multi-strategy authentication with OTP email verification via **Nodemailer** and **Passport.js** middleware chain.
- **Upsolvers — LLM workflow based Competitive Programming Helper** **Live | GitHub** April 2026 :
Technologies / Tools Used: Python, LangGraph, LangChain, SQLite, Streamlit, Asyncio, Pandas
 - Built a **stateful LLM workflow** orchestrating **6 specialized nodes** using conditional flows and graphs via **LangGraph** and **LangChain**, with **SQLite**-backed checkpointing state persistence enabling session resumption across HITL & agent failures.
 - Implemented **Human-in-the-Loop (HITL)** workflows to review and refine **Groq LLM**-generated personalized study plans.
 - Fetched competitive programming data via **Codeforces REST API** and **LeetCode GraphQL API**.

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, TypeScript, Python, Java (Basics), SQL
- **Frameworks & Libraries:** Express, ReactJS, Socket.io, Passport.js, LangChain, LangGraph, Hugging Face.
- **Databases & Dev Tools:** MongoDB, PostgreSQL, MySQL, SQLite, Git, GitHub, Postman, VS Code, Claude Code, Codex.
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Object-Oriented Programming, Database Management Systems.
- **Areas of Interest:** Competitive Programming, Web Development, Generative AI, Agentic AI, RAG, MCP.

CODING PROFILES

Codeforces: @lucky1426shrma **LeetCode:** @lucky1426shrma **CodeChef:** @nifty_glee_76 **Github:** @lucky1426shrma

ACHIEVEMENTS

- **LeetCode Knight – Top 2.93%** (Max Rating: 1974) | **Rank 557** in LeetCode Weekly Contest 506. 2026
- **Codeforces Specialist** (Rating: 1449) | **Global Rank 853** in Codeforces Round 1090. 2026
- **CodeChef 3-Star** (Rating: 1617) | **Global Rank 191** in CodeChef Starters 194. 2025
- **Rank 3440** among 20,000+ participants – **Goldman Sachs India Hackathon 2026.** 2026
- **ICPC India Prelims** team Rank 743 (Top 10 teams from MNNIT Allahabad). 2025
